

IMS Policy

Under the leadership of CIMC TGE Gasinvestments S.A., the entities
TGE Gas Engineering GmbH,
Shanghai CIMC TGE Gas Engineering CO., LTD, and
Technodyne International Limited

are engaged in consulting, design, delivery, construction, and commissioning of terminals for the chemical, petrochemical, power and Oil & Gas industries. Having served the industry for over 40 years, we gathered ample expertise in the field of handling and gas storing, and in the transport, recovery, separation, liquefaction and compression of both petrochemical and natural gases. This includes newly built plants as well as existing plant optimizations and services for clients worldwide. We also look into future cryogenic gas business in new products such as hydrogen or CO₂ treatment, adopting the newest environmental standards and regulations as part of the strategic development.

Maintaining and continuously improving an integrated Management System (IMS) according to the standards ISO 9001, ISO 14001, and ISO 45001, we are fully committed to all our IMS requirements and to all legal, contractual and other binding obligations.

We aim for full customer satisfaction and close cooperation with all interested parties to achieve long-term business relationships and subsequent orders.

To meet our requirements for the prevention of accidents, of occupational illnesses and of work hazards and provide a safe and healthy working environment as well as an improved environmental performance and material damage prevention, to promote wellbeing among workers and society we:

- provide safe and healthy working conditions,
- eliminate hazards, assess and mitigate risks,
- consider effective ways to reduce energy and material consumption,
- preserve natural resources,
- prevent pollution,
- focus our development on climate-friendly product lines.

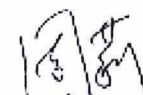

Employees are encouraged to take responsibility in their respective areas and actively participate in the development and implementation of the IMS and the pursuit of our goals. This includes

- consultation & participation of staff and works council/workers' representatives in all relevant areas,
- maintaining and encouraging open-minded dialogue with employees and all other interested parties
- promoting the competence of our employees
- completion of tasks in agreed timelines.

Compliance with our IMS and its continual improvement through all activities of the Company is of critical importance for us. The Management ensures therefore that all required resources are available at all times.
